Office Action Summary

Application No.

10/676,946

Applicant(s)

JAMBOR ET AL.

Examiner

Jessica R. Baxter

Art Unit

3733

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-20 is/are pending in the application.
4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☒ Claim(s) 1-5 and 8-14 is/are rejected.
- 7) ☒ Claim(s) 6, 7 and 15-20 is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 30 September 2003 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. ____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☒ Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)
Paper No(s)/Mail Date 08152005, 06042004.

- 4) ☐ Interview Summary (PTO-413)
Paper No(s)/Mail Date. ____.
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: ____.

Art Unit: 3733

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-5, 9, 11, 12, and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 4,157,713 to Clarey.

Clarey discloses a band comprising: a tension carrying belt (10); a balloon (24) attached to said tension carrying belt, said balloon comprising a plurality of partitions (22) defining a plurality of inner chambers (26); and a fluid supply tube (50,52) in fluid communication with said balloon and attached to said tension carrying belt; wherein said fluid supply tube further comprises a plurality of inlets wherein each of said plurality of inlets is in fluid communication with a corresponding one of said plurality of inner chambers of said balloon and said fluid supply tube inlets at each end of the partition; plurality of check valves each of which is located within one of said plurality of inlets (Column 3, lines 30-42); wherein each of said plurality of check valves comprises a one-way check valve; wherein each of said plurality of check valves comprises a two-way check valve; wherein said tension carrying belt further comprises a latching mechanism (34, 36). The valves are considered to

Art Unit: 3733

be check valves since the valves prevent backflow of air out of the device and allow movement of air in and out when it is required. The compartments (26) may also be interpreted as a plurality of balloons, since the partitions separate the interior of the balloon that is attached to the band. In addition the partitions (22, may also be interpreted as reinforcing structure.

Regarding the preamble "gastric", it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations.

3. Claims 1,8,9,10,11,13 and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by PG-PUB 2005/0192531 to Birk.

Birk discloses a gastric band comprising: a tension carrying belt(10); a balloon attached to said tension carrying belt (6), said balloon comprising a plurality of partitions defining a plurality of inner chambers(FIG. 4); and a fluid supply tube in fluid communication with said balloon and attached to said tension carrying belt (paragraph 0030); wherein said latching mechanism comprises one or more sutures (paragraph 0006); wherein the device has a length between 8 and 15 cm (paragraph 0008).

Birk discloses a gastric band comprising: a tension carrying belt (10); a plurality of balloons (6) wherein said plurality of balloons is attached to said tension carrying belt (FIG. 4); and a fluid supply tube comprising a plurality of inlets (paragraph 0006) wherein said fluid supply tube is attached to said tension carrying belt such that said plurality of inlets of said fluid supply tube provide fluid communication between each of said plurality of balloons and said fluid supply tube (paragraph 0006).

Birk discloses a gastric band comprising: a tension carrying belt (10) having a top portion; a balloon having an interior surface, said balloon further comprising one or more reinforced sections (7) disposed along the length of said interior surface of said balloon (paragraph 0033) said balloon being attached to said tension carrying belt (paragraph 0031); and a fluid supply tube wherein said fluid supply tube provides fluid communication between said balloon and said fluid supply tube (paragraph 0030); wherein upon being placed in an encircling position around a stomach, each of said reinforced sections contacts said top portion of said tension carrying belt dividing said balloon into at least two chambers (FIG. 7).

Allowable Subject Matter

4. Claims 6,7, and 15-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jessica R. Baxter whose telephone number is 571-272-4691. The examiner can normally be reached on M-F 8:30AM - 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eduardo Robert can be reached on 571-272-4719. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
